

Season's meat-ings

Seasonal flavors are not left out of the salty snack market, including holiday pretzels and popcorn tins; however, some snacking categories are stretching imaginations with

their seasonal product offerings. **Southern Recipe's Small Batch Pork Rinds** are offered in flavors that combine the inherent salty nature of pork rinds with sweet flavors, such as their Apple Cinnamon Flavor and Cranberry Jalapeño. These products are

a salty sweet combination that strays from traditional seasonal products, bringing renewed excitement, especially relevant as seasonal twists are a top interest of consumers (see Interest in Salty Snack Innovation).
